

Improving the Lives of Older Adults and Their Caregivers

2021 ANNUAL REPORT

Field Hall Foundation awarded \$1,089,126 in grants in 2021 to improve the lives of more than 8,300 older adults and their caregivers in Dutchess, Putnam, and Westchester Counties. There were 57 grants awarded, ranging from \$1,500 to \$75,000, including 20 full, 24 small and 13 holiday grants.

The pie chart below shows the breakdown of funding, by focus area:

More than 27% of this year's funding provided **Social Work and Case Management** services to 2,959 seniors. These grants were primarily used to help seniors obtain the programs and benefits they are entitled to, with focuses on mental health, dementia, and kinship caregivers, as well as access to the COVID-19 vaccine.

Grants for **Home Based Services** ranged from expanding an adaptive living program for blind and visually impaired older adults, to providing technology and education to combat social isolation, to providing workplace readiness and placement services to help seniors re-enter the job market.

Wrongful evictions and elder abuse were addressed through **Safety & Security** grants, as well as home modifications and repairs that allow older adults to live safely in their own homes.

Food Insecurity continued to impact seniors in all three counties, and the Foundation was able to double the funding previously provided to assist more than 4,000 seniors.

The Foundation's funding for **Transportation** made it possible for seniors to attend their local senior center and go grocery shopping, as well as transport home-health aides to seniors' who live in the more rural parts of the region.

A skilled nursing residence used their funding to pilot a **Respite Program** that provides short-term 24-hour care to seniors in need, allowing relief for their caregivers.

Over \$2 million has been awarded in grants!

Since the Foundation's grantmaking program began in January 2019, the Foundation has provided \$2,173,126 in funding to support nonprofits and local government agencies who are working to improve the lives of older adults and their caregivers.
